DETAILED ACTION

1. This office action is in response to communication filed on 3/18/95.
2. Claims 1-13 are presented for examination.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, 8, 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Hertz (5,835,087 hereinafter Herz).

With respect to claims 1, 4-6, 8, 11-13 Herz teaches an in contents-advertising method wherein advertisement information provided beforehand is included in digital contents activated by a user terminal (Summary). Determining that the digital contents have been activated by the user (col. 55, lines 45-54); transferring an identifier of the digital contents and an identifier of the user to an advertising information server when the digital contents have been activated by the user (col. 55, lines 45 to col. 56, lines 1-14); selecting and retrieving advertising information by the advertising information server based on the digital contents identifier and the user identifier and transferring the retrieved advertising information to the user terminal (col. 60, lines 11-20); inserting the retrieved advertising information in the digital contents such that the advertising information is automatically selected and retrieved from the advertising server, transferred to the user terminal and inserted in the digital contents when the digital

contents are activated in the user terminal by the user (col. 55, lines 45 to col. 56 lines 1-14; col. 60, lines 11-20 and col. 61, lines 4-26).

With respect to claims 2-3, Herz further teaches providing the advertising information by the advertising sever to the contents provider for insertion in the digital contents (Figure 1).

Claim Rejections - 35 USC § 103

5. Claims 7, 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Herz.

Claims 7 and 9, further recite advertising fees based on said recording results. Official notice is taken that it is old and well known to charge based on recording/product quality. For example, a low/inferior quality recording or product gets a lower fee than a high quality product or recording in order to compensate for good performance. It would have been obvious to a person of ordinary skill in the art at the time of Applicant's invention to have included advertising fees based on said recording results in order to obtain the above mentioned advantages.

Claim 10 further recites the advertisers providing the times of the advertisement insertion and providing said ads based on said advertisements information specified from said advertiser. Official notice is taken that is old and well known for advertisers to select the times slots and structure in which they want the advertisements to be displayed to the customers. It would have been obvious to a person of ordinary skill in

the art at the time of Applicant's invention to have included the advertisers providing the time of the advertisements insertion because such a modification would allow the advertisers to target the proper audience based on the time period selected.

Response to Arguments

6. The proposed replacement sheets for Figures 7,8 have been accepted.
7. The claims amendment overcomes the 101 rejection.
8. Applicant's arguments with respect to claims 1-13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
